An AI Driven Perfect School Management System
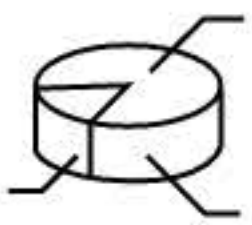

Prospectus 2020

Qbex™

School management is challenging!

The present fast paced era demands quick and easy solutions to managing diverse school management processes. Even the most basic management processes such as examination and fees management, if done manually, consume a lot of time and effort of the staff. In addition, manual processes are always highly prone to errors.

We understand that tasks such as maintaining students' profiles, guardian relationship and employees' performances have also become quite complex. Add to that, the necessity to seamlessly synchronize all these data, processes and relationships. You surely wish for a one-stop solution. Well, we have good news for you!

Presenting to you - Qbex, a web-based AI driven School Management System that makes managing your information as easy as surfing the web. Qbex knows you well and it will make you fall in love with automation and technology at work. Once you try Qbex, you will never want to go back to any other software. Qbex is indeed the best School Management System in Nepal.
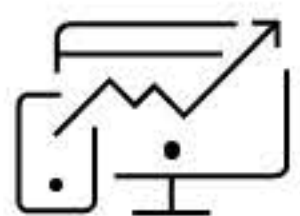

Qbex will help you achieve the following:

Increase efficiency and effectiveness of administrative aspects of school management by reducing cost, time and errors.

Seamless integration of all the processes, data and relationship existing in the institution. Higher degree of accountability of teachers, parents and non-faculty staff toward each other by fostering effective communication.

Develop evidence-based strategies backed by analytics on the performances of students and teachers.
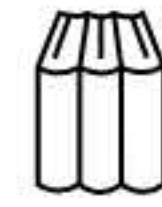

Our Mission

- ✓ Online Entrance and Regular Examination

Reports

- ✓ Class conduction data
- ✓ Assignments record
- ✓ Student marks
- ✓ Examination scores

"The Qbex team exhibited professionalism throughout the software package development and implementation period. They communicated regularly and understood our requirements exceptionally well. Even during the difficult lockdown period, we received excellent remote support to deploy the system. What amazed me was the work ethics of the team to deliver quality work with attention to details while remaining within a tight deadline. Choosing Qbex was a wise decision for us as digitalization has visibly improved our operational efficiency and effectiveness."
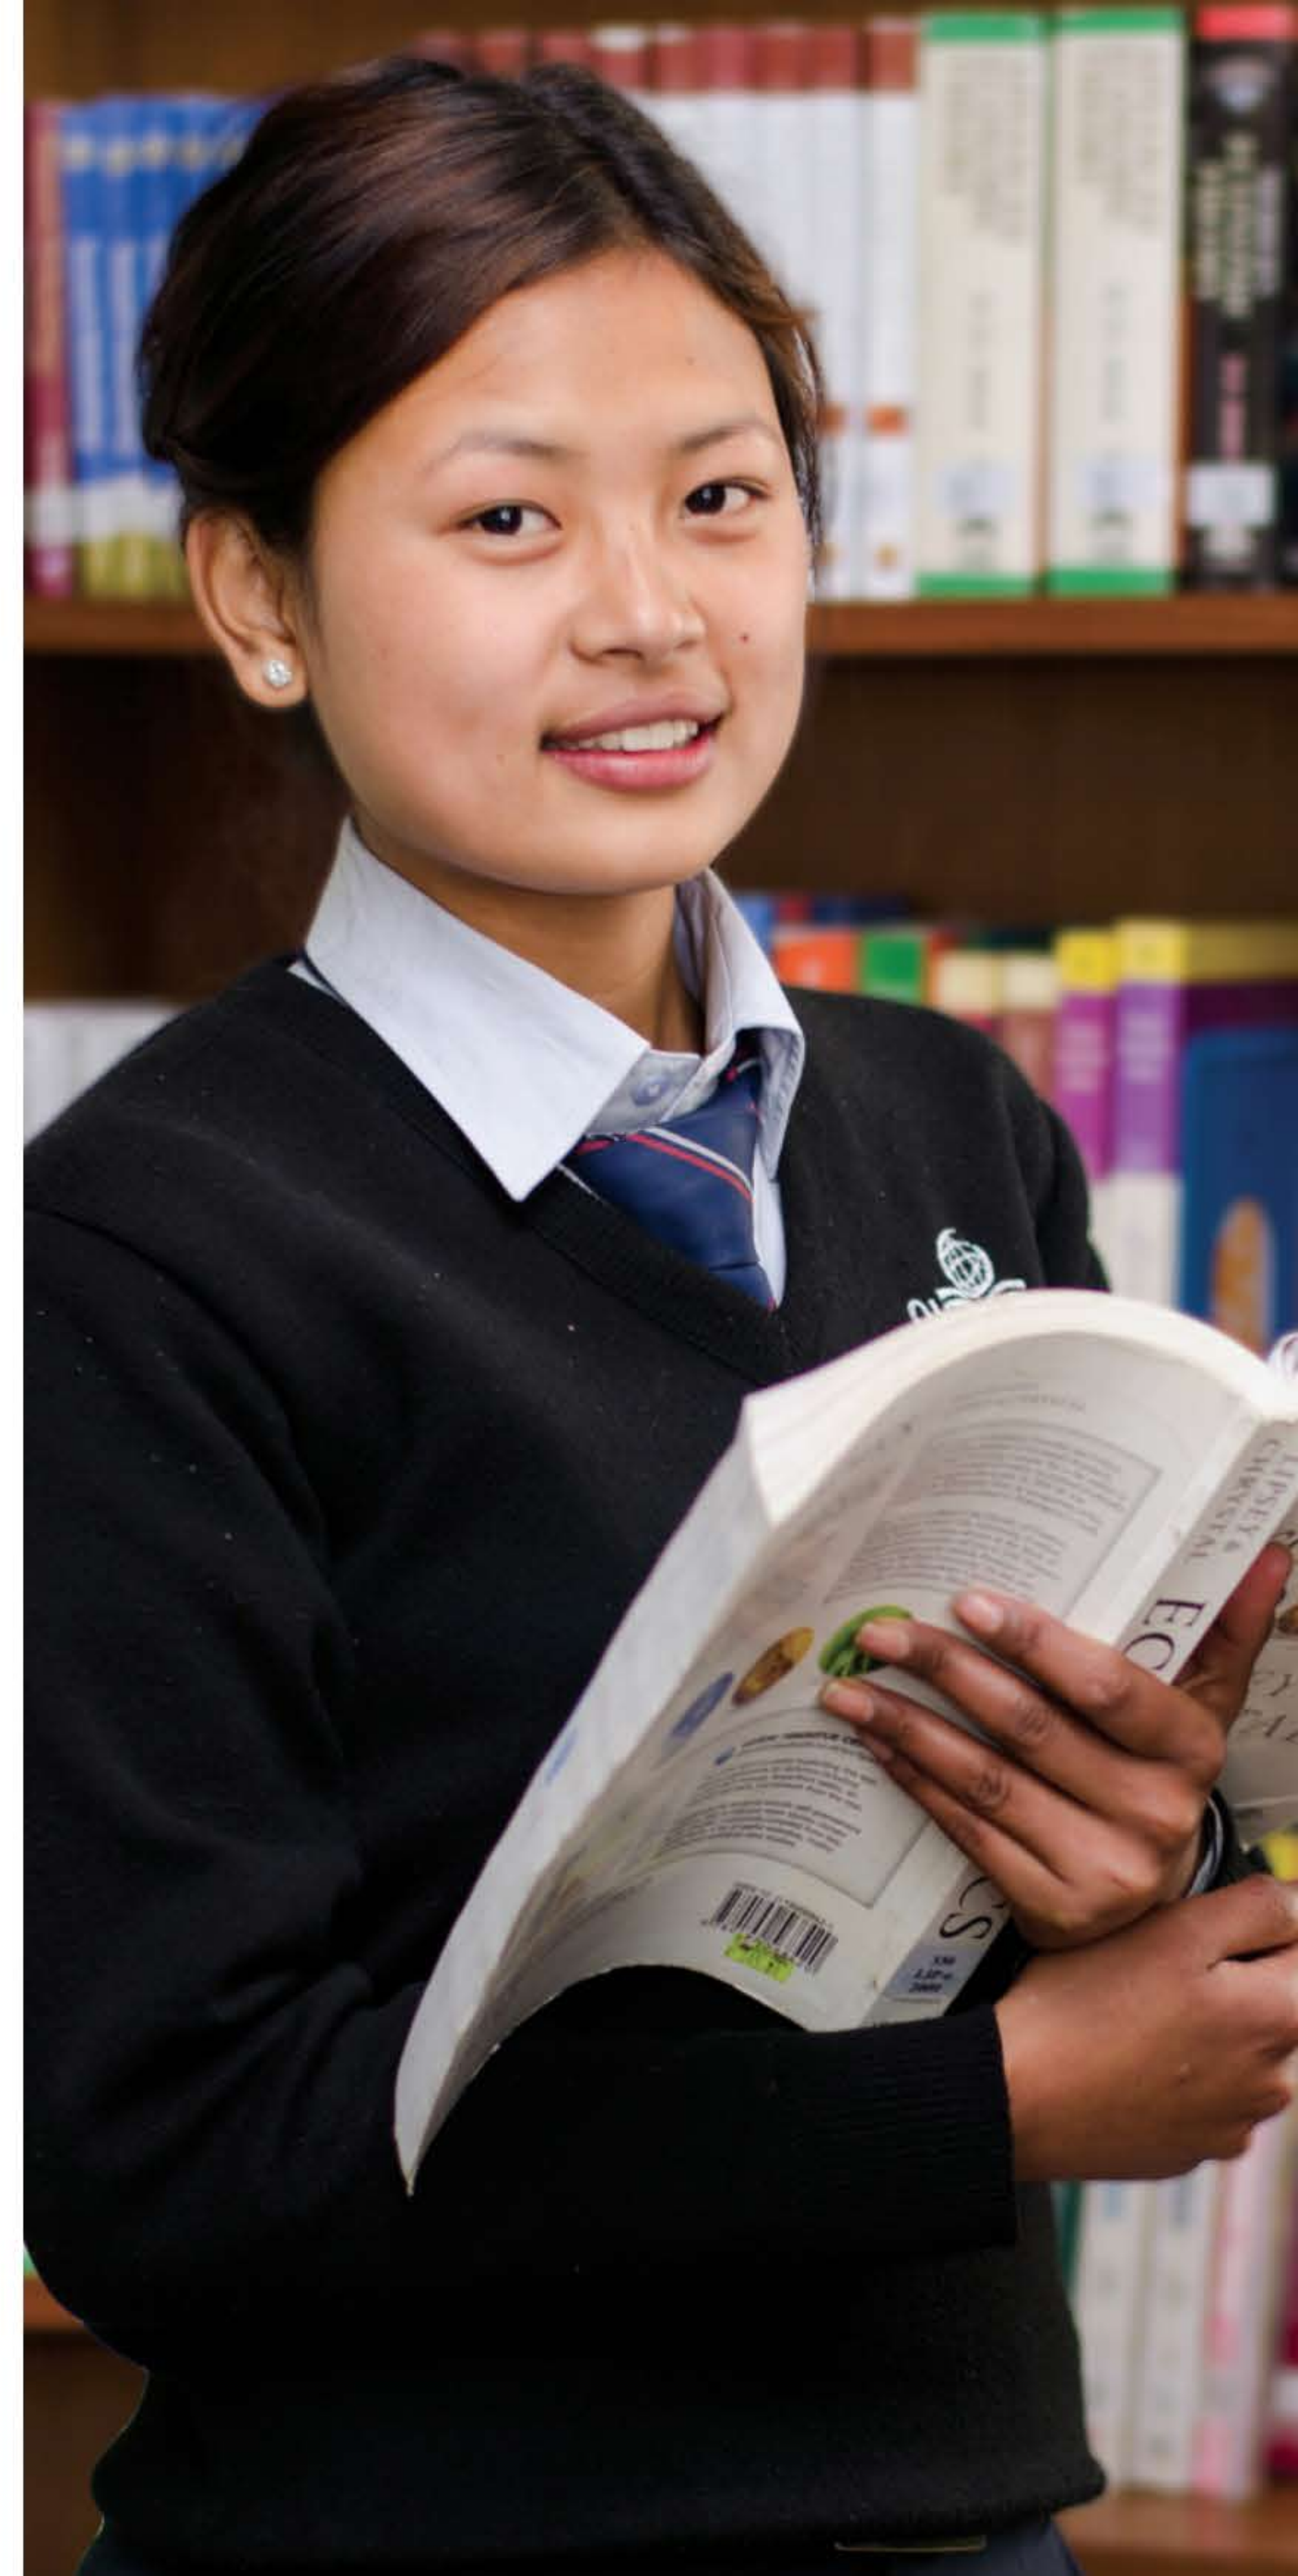

Prabin Shrestha
Admin Director, Chanakya College of Management

"The Software makes the overall performance of the school run smoothly especially dealing with the finance related transactions with the help of regular support staff. Multi processes can be carried out at the same time with ease and the security & back up of the information makes it more reliable. The thing that I like the most about Qbex is the speed and accuracy of report cards that it generates. We always receive excellent support from the Qbex team, especially during report card preparation and distribution. It saves our teachers a lot of time and effort."

Sundar Budathoki
Nepal Police School Chitwan
